Wall Street

New York, Sept. 17.—The week enfound a moderate uncovered short in terest remaining from the selling op-erations of the previous day or two and the demand to cover on that ac-count was an influence on the market. The expressed intention of the for-

eign bankers organization to consider further the problem of insurance of cotton bills of lading aroused fresh hopes that a compromise would be effected which would avoid disturbance of the money cand exchange markers Surplu

transactions and the concurrent loss of cash brings the actual surplus down to \$21,370,000. The money market was replenished today by a redemption of \$10,000,000 British treasury hills. Mexican gold to the amount of half a million dollars was received in New York. Closing stocks:
